He was sorry that Mr. Haskin had spoken of the President with so much passion and technique. He would not hang a dog on such testimony as that of Mr. Wendelt; it is bad laste in him to scatter Partition arrows at the President in the attempt to degrate him when he (Haskin) for a cause yet unexplained, gave the contract for hinding to a trieud at a higher price than was offered by a responsible bidder; besides Mr. Haskin had voted for Mr. Defrees tor printer after he had proposed to the Republican caucinstogie thaff the profits for partisan purposes; and yet the gentleman stands up with a swagger and arraigns the President for dividing jobs, legitimately within his gift, among his own friends instead of parcelling out all ne sarplus among partitizin presess. Mr. Burnett said that if such testimony existed he had not seen it—he did not, however, question it, for he knew nothing about it. He then argued against the Government offices and in favor of reducing the present rates of prinning.

the contract system having proved a finiture, and because it would render the business independent of the corruption attached to it. Mr. Burnett expressed the bope than Mr. Pryor, the next time he charged corruption on the Administration, would be better in member as to facts. Mr. Pryor a knowledged his indebtedness for the advice. Let the House order a committee and make him chairman and he would prove what he said. Mr. Burnett said that if the gentleman accused the President, he would vote for another committee. If corruption exists, let him be arraigned, impeached and disgraced. If the gentlemen desired to show their zeal it would be better for them to fire broadsides at the Republican party instead of family quarrels.

Mr. Pryor said he was fighting on his own individual responsibility and in defense of the people. He conceived it sound policy that the Democratic party should wash their day of all corruntion.

After further discussion, Mr. Haskins closed the debate, contending that the President knew of the profits of the postoffice printing, and stating that he could vote against all schemes of extravagance and corruption, coming from either Democrats or Republicans.

The bill for the establishment of a government printing house passed by 120 against 56.

Mr. Pryor made a personal explanation in saying he had been approached, he should havestated that in 1857, he was solicited to apply for a portion of the surplus fund, but he indignantly repolled the proposition.
